### SUMMARY

River Wall/Armour	Saltings	High Tide Debris Line
Mainly good with some loose armour blocks	Good	Low 5 feet below wall top

### River Bank Surveyed:

## OVERVIEW & PHOTOS

Walls well covered in vegetation with no risk of erosion in the event of over-topping.

A few armour blocks have become loose, but not causing concern.

Where armour has been replaced in the past, the old material has been left to provide additional protection.
